Campaign Is On For Apartments

T. V. Reeves Opens an Office to Assist Placing New Citizens of Canyon

A clearing house for apartments in Canyon has been opened at the City Hall with T. V. Reeves in charge. Mr. Reeves will be at the office daily to receive data on apartments which are for rent and to advise with citizens of Canyon who wish to furnish apartments or to remodel rooms so that they will be available for rent.

There has been a lull in the demand for apartments this week, but a number of workmen in Amarillo have indicated that they will move to Canyon if suitable apartments are available.

Mr. Reeves is not in the real estate business, but opens the office in order to assist both the property owners and those who handle real estate. His records will be opened to all who are interested in showing or renting property.

Two meetings of business men interested in the housing situation have been held this week. It is believed that there are many homes in Canyon which could take families by doing a little work to convert rooms into apartments. Canyon has had very low rents during the past years, and therefore a minimum number of apartments have been furnished. Furnished apartments do not come under the rent ceiling, according to authorities, but people will not drive to Canyon unless they can get better accommodations at lower prices than they can secure in Amarillo.

Apartment will be listed with the Amarillo Chamber of Commerce as rapidly as they become available in Canyon.

Six Men Called to Start Officer Training in Army

Randall county will furnish six candidates for officer training under Selective Service on July 25. This is an unusually large group of men to start officer training from one county. Five are West Texas State professors.

This group is composed of: Dr. Conrad Freed, head of the Speech Department; James Butler, assistant speech professor; Robert J. Hibbets, Business Administration department; Ardis Patman, Spanish department; Houston Bright, Music department; Weldon Bright, who received his degree in June.

This makes nine men who have gone from Randall county through Selective Service to enter officers training. William Q. Boyce has received his commission. Eugene McCart and Don Wyatt are now in training.

Randall county has an unusually large number of officers in the various branches of the service, practically all of them having attended West Texas State.

Boy Drowned Saturday at Buffalo Lake

Don Stanley, 15, was drowned at Buffalo Lake Saturday night while in swimming with a group of young friends. He was with a group of Sea Scouts from Amarillo and is supposed to have taken cramps.

C. L. Thompson took the inhalator to the lake but the body had been in the water too long.

This is the second Amarillo man drowned in Randall county within a week.

COLE IN WASHINGTON

According to a telegram to Glen McGahey, Ray Cole is stationed at Port Townsend where he is connected with the shore patrol of the navy. Ray enlisted in the navy several months ago.

HEARS FROM SON

Mrs. P. L. Walters has received a letter from her son, Kenneth P. Walters, stating that he was now in the Hawaiian Islands. It took him twelve days to cross.

Mr. and Mrs. J. M. Breitling and Mr. and Mrs. Herbert Breitling of Amarillo returned Tuesday night from a vacation trip to Elephant Butte Dam.

Fine Agricultural Leaders of Randall County Praised by Head of Farm Bureau

"Randall county farmers are standing together for a sound, stable agriculture so necessary to insure production of the food and fiber needed to win this war."

So declared J. Walter Hammond, president of the Texas Farm Bureau Federation, in taking official note at his office in Waco of the fact that Randall county is leading the state in Farm Bureau memberships.

With 456 members reported since December 1, 1941, Randall county has already exceeded by six the number pledged for 1942.

"The American Farm Bureau Federation and its various state affiliations have waged a 20-year fight for parity for agriculture," he pointed out, "and full parity is absolutely essential at this time if farmers are to be able, in the face of rising production and labor costs on the farm, to meet Food for Victory goals."

"The entire Panhandle has shown a keen appreciation of the benefits to be derived through organized effort on the part of agriculture," Hammond said. "District 1, which comprises 22 Panhandle counties, is one of the strongest and most active in the state."

Randall county Farm Bureau officers are J. Eddie Park, president; B. E. McCormick, vice president; Mrs. A. E. Michael, secretary-treasurer; and John L. Hammond and C. P. Robertson members of the executive committee.

Randall county has the finest agricultural leadership in the state. County Agent W. H. Upchurch was awarded a certificate last year for his outstanding work. Only eight agents in the state received this certificate.

The farm program committee of the county is co-operating to the fullest extent with the Farm Bureau and giving full co-operation to the work of the County Agent.

July Bond Quota Placed \$21,600

County Chairman R. H. Wright Is Hopeful That Bond Sales Will Increase

The July quota of Randall County for War Bonds is \$21,600, according to information received by R. H. Wright, county chairman.

Randall county fell down on the bond selling job during June. With the big wheat crop very nearly harvested, Mr. Wright hopes that farmers will invest heavily in War Bonds during July.

Congress is considering forced investment in War Bonds if the voluntary plan fails to bring in as much money as needed to carry on the war effort.

New Regulation About Credit to Start July 10

The new government credit regulation becomes effective tomorrow. Under this provision charge accounts made during the month of May or previous to that time which are not paid by July 10 are delinquent, and no further credit may legally be extended to the person who has over-extended his credit.

The government is anxious to have all citizens get their financial affairs in shape so that no one will be cut off from further credit. Back accounts will be considered settled in a satisfactory manner if a note is given for past due balances and the maker of the note meets his obligations promptly.

Hopper Poison to Be Available Two Days of the Week

The grasshopper mixing station will be opened Friday and Saturday of this week to take care of any who need the poison for either farms or gardens.

The station will also be opened Friday and Saturday of next week and if there is demand for large scale poisoning on the part of the farmers the poison rate will be made available on a full time basis.

Four Men Entered Service This Week

Cleveland Jones left Sunday for Dallas. He has enlisted in the physical education program of the navy.

Riley Maze Whittaker has enlisted in the army. James McGuffey Killian has enlisted in the navy.

Ervin Eugene Beltz has entered the air corps.

Election Judges Named

Polls in Ten Boxes July 25

Little Interest Shown in Coming Primary With So Few Local Candidates

Randall county will hold elections in all of the 10 voting boxes of the county.

In Canyon there will be only one voting place—the Red Cross Room on the west side of the square. This room is sufficiently large to take care of all the voters of the precinct.

Judges are as follows:
No. 1, D. A. Shirley.
No. 2, J. J. Leavitt.
No. 3, Ross Craig.
No. 4, E. W. Schaeffer.
No. 5, Jas. E. Park.
No. 6, H. W. Burruss.
No. 7, Geo. E. Mason.
No. 8, Will P. Janssen.
No. 9, H. M. Beverly.
No. 14, C. B. Erwin.

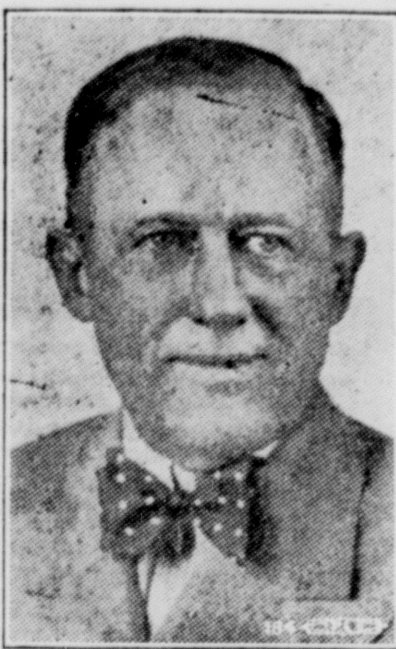

The primary election ballots were printed Saturday and delivered to County Clerk A. B. Holt for distribution.

Absentee votes may be cast, either at the office of the clerk, or by filing written requests with the clerk.

Soldiers who paid their poll tax before entering the service may vote in this election.

The first primary will be held July 25 and the run-off will be held on August 22.

Dan Moody Here Thursday; Meets Many Friends

DAN MOODY

Former Governor Dan Moody was here Thursday for a short time in the interest of his campaign for United States Senator. Mr. Moody visited with a number of friends while in Canyon.

Born in Taylor, Texas, June 1, 1893, Dan Moody was educated in the public schools of Taylor and the University of Texas. He began the practice of law in 1914. During the first World War, he volunteered and was commissioned a second lieutenant of infantry.

He was elected County Attorney of Williamson County in 1920, and in 1922 was appointed District Attorney of the 26th Judicial District. He was elected Attorney General of Texas in 1924; and Governor of Texas in 1926—the youngest man ever to hold any of these offices. He voluntarily retired from public office in 1931 and entered the general practice of law.

In 1935 at the personal request of President Roosevelt, he went to New Orleans and successfully prosecuted a member of the Louisiana political ring for income tax evasion.

His record is one of honesty, industry and courage; and his administration as Governor is a bright spot in Texas history. It was characterized by honest service and devotion to the interests of the people.

DR. FRED OBERST LEAVES

Dr. Fred W. Oberst of Lexington, Ky., was honored this week with a birthday dinner at the home of his parents, Mr. and Mrs. E. A. Oberst. The house was beautifully decorated for the occasion with lilies and gladioli. Dr. Oberst left Tuesday for Lexington where he is engaged in biochemical and medical research on narcotics and drug addiction for the U. S. Public Health Service.

Mr. and Mrs. Joe Jackson spent Sunday in Amarillo.

Harvest Practically 70 Percent Over

Storage Problem Very Acute Over County; Wheat Price Little Better This Week

Harvest is about 70% complete in Randall county.

Rain has fallen in parts of the county during the week, but not sufficiently large to halt harvest for long periods of time.

A hail storm hit a small section of the county Sunday afternoon. 20 acres of wheat was destroyed for the Foster Bros., but none of the neighbors had enough hail to do much damage.

A heavy rain Monday evening hit Canyon, with 1.27 inches of moisture falling. The rain was heavier east of Canyon for a couple of miles, but the rain went only a few miles in any other direction. Light showers were reported in some sections, while wheat harvest was not stopped in many parts of the county.

Storage is very critical, with many farmers dumping their wheat on the ground hoping to get storage later. Many of the vacant buildings around Canyon have been converted into storage bins. Two car loads of bins have been received, which were ordered several weeks ago, but eight carloads are yet to come.

It is impossible to secure storage in the big terminal elevators. Millers are buying wheat. The price yesterday was 89 cents.

It is reported that 85 cars of wheat has been shipped from Canyon up to Tuesday afternoon.

Old Records Are Needed to Make Discs for Army

All members of the American Legion are called upon to gather old victrola records.

The old records will be sent in and new records made for use in the army camps.

A quota of 25 records has been given every Legionnaire in the nation. Palo Duro Post members hope that they will be able to gather all of the old records in the county.

Those having old records should bring them to one of the Legion members.

Selective Service Has More Calls For Young Men

The first call for August under Selective Service is for 24 men on Aug. 17.

On July 18 the call is for 13 men; July 25, 4 men; and July 30, 1 negro.

Boyce House Is Here in Interest of His Candidacy

BOYCE HOUSE

"The big regret of a campaign for office in a State as big as Texas is that you can't stay in a town as interesting as Canyon as long as you'd like to," said Boyce House, Fort Worth newspaperman, while here Tuesday afternoon in his race for Lieutenant Governor.

"However, I had the pleasure a while back of visiting the wonderful Palo Duro Canyon and of spending a little while in the museum at your college," House continued.

Never before a candidate for any office, House is one of the most widely experienced men in Texas—he has written five books about Texas, has had Texas articles in the Saturday Evening Post, helped to write "Boom Town," a Texas motion picture; writes a column, "I Give You Texas," for over 200 weeklies with more than a million readers, and talks about Texas each Sunday over the radio. He has been "good will ambassador" of the Fort Worth Fair Stock Show for the past two years and he knows personally thousands of people in West Texas, having lived in this section for 15 years before moving to Fort Worth, "where the West begins."

House has received over 1,600 letters pledging support, from all parts of the State. His slogan is "Put House in the State House" and many political observers declare he is far out in front for Lieutenant Governor.

Mrs. Happy McAtee and daughter spent the week end in Perryton.

Largest Pile in Area in Canyon

All Citizens Urged to Turn in Rubber and Keep the Automobiles Running

The rubber salvage campaign will come to a close Friday. President Roosevelt expressed disappointment in the result of the campaign and extended the closing date to July 10. Every citizen is urged to take time out and make a close search of his property to see if he cannot dig up more rubber to contribute to the nation's salvage pile.

The largest pile of rubber in the Panhandle is at the Consumer's Service Station, according to Amarillo authorities. This firm has bought more than 40,000 pounds of old rubber. Trucks will start hauling the old rubber to the concentration pile in Amarillo, and by train it will go to the reclaiming plants. Glen McGahey states he is told that no other firm in the Panhandle has collected such a large amount of rubber.

All of the service stations in Canyon have given full co-operation to the rubber campaign, and each one has accumulated large stocks of old rubber.

A last minute drive is urged by station operators, as the final result of the campaign probably decides whether or not there will be necessity of national gasoline rationing.

Extra Sugar Is In Prospect for All Americans

The local War Price and Rationing Board has not received instructions regarding the sugar bonus which has been announced in Washington.

The following was the dispatch printed in the Saturday daily newspapers:

WASHINGTON, July 3.—A sugar "bonus" of two pounds for every ration card holder, purchased between July 10 and Aug. 22, was announced by the Office of Price Administration Friday because of "somewhat heavier shipments" of sugar into this country than anticipated.

In addition, institutional users will get 75 per cent of their normal sugar consumption for September and October instead of the present 50 per cent, and industrial users will get 80 per cent instead of 70 per cent.

Householders may obtain the dividend allotment by presenting ration stamp No. 7 to the grocery store any time in the six-week period. The bonus is in addition to the regular two-pound monthly allotments obtainable with card No. 5, and with card No. 6.

Price Administrator Leon Henderson, in announcing O.P.'s decision, said it represented a "conservative gamble" on the likelihood of sugar supplies continuing to arrive in their present volume.

Former Citizen Died; Was Banker Here

S. F. Sullenberger died Monday at Marlin. He has been a citizen of Amarillo for many years, but was formerly of Canyon.

Mr. Sullenberger helped organize the First National Bank in Canyon and was the first cashier of the bank. The late L. T. Lester was president of the bank. He has been in Canyon many times in recent years, having attended meetings of the Rotary Club until recently. He was 81 years of age.

POLITICAL WRITER HERE

Lewis Nordyke, political writer of the Amarillo Globe-News, was here Tuesday and visited at the News office. He was on his way to Plainview to witness the reception given Senator O'Daniel and Hal Collins by the voters.

Nordyke is greatly interested in the political situation of Texas this year, but like all writers finds that people are thinking more about crops and the war than they are about candidates.

Mrs. Nordyke accompanied her husband.

STORK SPECIAL

Mr. and Mrs. Elgin Johnson of Los Angeles, Calif., announce the arrival of a baby girl, Mary Elizabeth, born June 29. Mr. Johnson is the eldest son of Mr. and Mrs. Jim Johnson of Canyon.

BREAKS ARM THURSDAY

Miss Mary Alice Browning had the misfortune to break her arm last week while at her home south of Canyon. She is getting along fine.

"I pledge allegiance to the
Flag of the United States
of America, and to the
Republic for which it
stands, one nation indi-
visible, with liberty and
justice for all."

What shall we do with the Ger-
mans? This is the big question for
debate throughout the United Na-
tions. Well, the first thing is to
whip hell out of them. Unless we
win the war the Germans will have
the problem of taking care of us—
and how they will do that! It is cer-
tainly hard not to let hate enter
into a discussion of the war. Hate
never wins, either from a personal
or private standpoint. The Ger-
mans and their leaders have dealt
out enough misery to justify any
kind of punishment that the United
Nations might hatch up. As a
matter of fact, if the Germans per-
sist in starting a war every 20 or
25 years, the simple solution would
be to wipe out the nation as a
political entity. But the history of
Germany has been too great for
that. Its achievements in the past
do not justify the low grade of
leadership which grips it for the
present. The German people are
too useful to be wiped out because
of the stranglehold which the mil-
itary leaders have upon the nation.
But the fact remains that Germany,
as a military power, must be brought
under control. If we are not mis-
taken, U. S. soldiers will patrol
German soil for the next 50 years
to see to it that another military
party will not become powerful
enough to start another world war.

People of this nation are too op-
timistic of a revolt in Germany.
According to American newspaper
reporters who have returned from
Europe in the exchange of war
prisoners, this is all wishful think-
ing. The German people know that
millions of them will be slaughtered,
just as they have slaughtered the
peoples of the invaded nations.
The German army has supreme
confidence in the ability of Hitler,
and has a fantastic patriotism for
the cause for which it is fighting.
Why not? So far the Germans have
won every battle, and although
halted at the present time, they are
still making progress in spite of all
the United Nations have been able
to do. The force of the United
States is the thing that will turn
the tide—both machines and men—
and so far we have been unable to
get there with sufficient strength to
greatly augment our Allies. Facts
are facts, regardless of the present
disagreeable aspect.

There is still false hope among
many married men that they will
not be called into military service.
Frankly, the newspapers made more
of the order to stop, temporarily,

induction of married men than the
story justified. This order did not
mean that no more married men
would be taken. As a matter of
fact, Selective Service is merely
clarifying previous orders. Every
single man in the United States
who is not considered a necessary
man in the war production will
soon be in the army. Provision is
made to take care of those single
men who have dependents. After
the single men are taken, then
married men without children had
just as well make arrangements to
get into the armed service. The
nation must raise a large army, or
go the way of France and the other
conquered nations. Our people are
not going to give up without a fight
to the finish, and it takes young,
aggressive men to be soldiers.

Winston Churchill admits that
there have been grave mistakes in
the United Nations command of
our fighting forces. From this point
of view it would seem that these
same mistakes are being repeated
too often. Our enemies are not
fighting according to the old brass-
hat regulations, and new ideas are
needed to meet their new fighting
tactics. In the first place, a unified
command is the great need, so our
military experts report. The lack
of unified military command has
lost too many battles so far in this
war. It will continue losing us bat-
tles until the army, navy and air
force are placed under the com-
mand of a fighter with modern
ideas. General MacArthur has the
confidence of all peoples of the
United Nations. Under his supreme
command the tide could be turned
before it is too late.

The President has appealed to
Congress to avoid pressure groups
who would dictate legislation. The
President should know how pressure
groups work because he is pretty
good at putting the pressure on
Congress. However, as head of the
government, the President has a
right to be heard on all questions
pertaining to the welfare of the
nation. Pressure groups are no-
toriously selfish and seldom work
for the benefit of the people. They
have to make a lot of noise because
they represent minorities—loud
minorities. Sometimes minorities
sponsor legislation which proves
very beneficial to the nation as a
whole, but usually these minorities
are extremely selfish in all of their
dealings. In a Democracy the ma-
jority hears the minorities, and
then out-votes them. Hitler shoots
the minorities who oppose him.

An old friend visited The News
the other morning. It was Dan
Moody, former Governor of Texas
and one of the ablest lawyers in the
State. Moody is making a personal
campaign for U. S. Senator. This
was his method of campaigning
when he was elected Attorney Gen-
eral and later elected Governor.
The News thinks a lot of Dan
Moody. He is an honest, capable,
fearless political leader. We served
under him in the House, and Dan
Moody was always a man to go
right down the line for the thing
in which he believed. He may have
made mistakes of the mind, but
never of the heart. He believes in
the things for which he stands and
which he advocates. Texas should
be proud of Dan Moody should he
be elected Senator. He will not put
all his family on the government

The Yanks celebrated the Fourth
of July in a grand and glorious
fashion. Raids were made on the
Germans in Europe by distinct
American air units; our airmen
performed on the German supply
lines in Africa; the air units in
China struck telling blows on the
Japs; the MacArthur men spread
bombs over Japanese held islands;
and our navy sank invading de-
stroyers off the Alaskan coast. The
war is spread to all parts of the
globe so far as we are concerned.

Chances are that for the next 50
years American troops will be on
every continent, acting as police-
men. The part of a good policeman
is always preferable to tracking
down and killing killers who are at
large.

According to the Gallup Poll the
people of the United States are at
last converted to the idea of a
League of Nations. A majority was
clearly opposed to such an organ-
ization before we were forced into
the war. Now we realize how fool-
ish we have been during the past
20 years in withdrawing from the
affairs of other nations and allow-
ing the bully nations to become
strong at the expense of the weak.
When this war ends it will be an-
other war fought in vain unless the
leaders are strong enough to effec-
tively establish a powerful League
to hold any nation in check which
may attempt to run over the rights
of little nations or suppress the
minorities within its boundaries.

OPA Henderson is in dutch with
Congress. He has set a course
which he believes will hedge against
inflation and argues that the money
he spends in price control will be
saved by the government in its pur-
chases of war materials. These are
questionable statements, and not
easily understood even by Congress.
The big difficulty is that the people
are tired of so many regulations
now, and want to see action rather
than more regulations. Henderson
may be right, but his price regu-
lations are being changed so rapidly
that it is pretty clear that he has
been doing a lot of experimenting
with no clear idea as to the results
he might obtain.

The big medicine show has vis-
ited the Plains—the greatest on
earth—O'Daniel and Collins! Ac-
cording to the Senator the war
concerns only the President, who
needs no help. But the President
certainly needs help rather than
hillbilly music. Collins continues
paying the bills of the parade, ac-
cording to the expense statements,
and trying to fool the people about
Governor Stevenson. Texas has
been the laughing stock of the na-
tion because of the political antics
which we have allowed on the part
of our elective representatives. We
have an opportunity to redeem the
state by defeating O'Daniel and
re-electing Stevenson.

Watch your credit and pay your
bills promptly if you expect to be
able to have credit. The govern-
ment is trying to induce people to
get out of debt and to pay their
bills promptly. The loss of accounts
is a terrible drain on business. Every
dollar taken away from business
concerns by deadbeats or those who
enthusiastically strain their credit
to the breaking point is a loss not
only to the business houses, but
also to the government. No one can
pay taxes with delinquent accounts.
The present movement to clear up
accounts at least every 40 days is
a fine thing for all our people. Let's
co-operate.

There is nothing more secure
than U. S. War Bonds. A few sim-
ple minded people may argue that
you should keep your money and not
put it in bonds, as there is danger
of inflation. Okay, supposing in-
flation does come; money, real
estate, and all other property will
be cut in value. Your bonds will
suffer no more than other property,
and you will be paid off according
to the schedule as printed on the
face of the bonds—provided of
course that we win the war. If we
do not win the war you will have
nothing left to worry about.

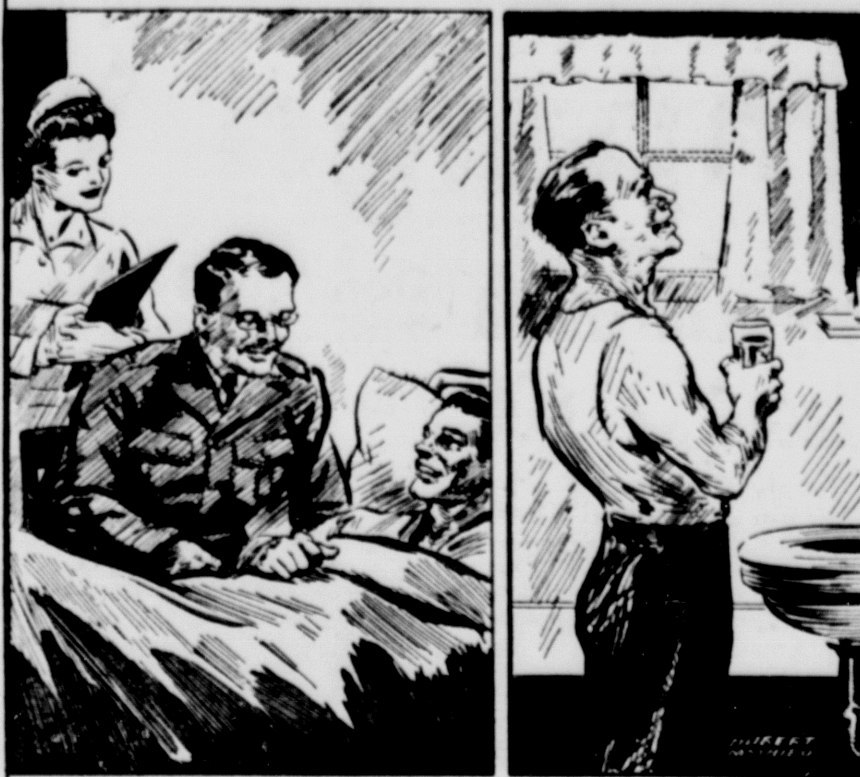

China has been fighting the Japs

The Chinese fight on and on, re-

The Chinese look at the war, and
not at the battles. A matter of

Churchill has won a smashing
vote of confidence in parliament.
The British are not easily upset by
reverses, as they have the ability to
take a long range view of events
and they try to consider the war
rather than single battles. Ameri-
cans are more impetuous and want
immediate results. Without doubt
Churchill is the greatest orator of
the day. But it will take something
more than brilliant oratory to win
the war.

It's hard to abolish departments
of government even though they
have served their usefulness. Con-
gress has abolished CCC and NYA.
Both were children of the depres-
sion, and both served to a good
purpose. But this is war, and every
effort of the nation must be directed
toward winning the war. If the
nation slumps into another depres-
sion after this war, these agencies
will be re-established.

We sure don't like the way subs
are sinking our ships right in our
own front door. Sub sinkings are
kept quite as a military secret. The
American people would like to hear
more about subs hitting the bottom
of the oceans rather than the regu-
larity with which our ships have
been sub victims, especially when
this rate is higher than the number
of ships we are building.

to indulge in a lot of tomfoolery

A great service was done by 300
magazines. Their organization
adopted the United States flag as
the most appropriate cover for the
June issues. It was not just an ac-
cident that the theme was so effec-
tively carried out. It was a united
effort, and all Americans should
feel proud of these publications for
the splendid service in this patriotic
endeavor.

There was a decided lack of fire-
works for the Fourth of July.
There were fewer accidents and
deaths throughout the nation. Pow-
der is too precious to be wasted on
fireworks when it might be used in
destroying our enemies; and men

AXIS

The enemy has
90%
of the world's rubber

What's rubber got to do with me?

EVERYTHING! Rubber at this juncture is a crucial implement of war. We have oil. We have gasoline. But we don't have rubber. Not enough. Not nearly enough for our planes and battle motor vehicles and industrial and civilian use at home. 90% of the world's rubber supply is in enemy hands, and what reserves we have are fast dwindling.

But you can help. You must help . . . help Sam who's in the Air Corps, John who's in the Army, Frank of the Marines, and the millions like them who are doing our fighting. Help the home front.

The President's Rubber Salvage Campaign has been extended until July 10. Go back to your attic and garage, your bathrooms and kitchen, your storage closets. Search out every scrap of rubber you do not actually need and take it to the nearest filling station.

Do it now. We must not be too late with too little. The stake is life and freedom, and civilization itself. When did Randall County ever fail in its patriotic duty?

It's up to
you

News of priorities, freezings, and shortages due to the war effort is causing some business people to think, "We have nothing to advertise." Because of our interest in the welfare of the businesses and services of Canyon, we say:

THERE'S PLENTY TO ADVERTISE

"Good advertising is more than the selling of immediate supplies of merchandise," said a recent editorial in the Detroit Free Press. "The history of advertising in the United States shows that it has been the major cause of the promotion of the things of life that we now consider essentials rather than luxuries. Canyon business firms should advertise weekly in The Canyon News—The Outstanding Weekly Newspaper of Texas.

Here's an Eight Point Program For Any Business In Canyon

1. Advertise Your Community

Many people cannot see the woods for the trees. And likewise many are so close to the advantages of the community that the good things we have are often lost sight of or forgotten. People of Canyon would do well to Advertise Canyon—to Canyon.

2. Advertise Your Institution

Your institution, whether it be a shop, office or store, has an individuality. It has a reason for existence. It is a reflection of the aims and thoughts of the owner or director. But, finally, it is of interest to Canyon. And because it is located in Canyon it should not be allowed to be taken for granted. Canyon institutions would do well to Advertise to Canyon—in Canyon.

3. Advertise Substitute Items

The true test of American ingenuity is the ability of Americans to adapt themselves quickly to changing conditions. Citizens of Canyon, knowing that all items are not obtainable at this time will be interested in substitute items which will fill their needs. It would be well to advertise to them what items ARE available in Canyon.

4. Advertise Fuller Usage of Products You Handle

One of the fundamentals of effective advertising is the interpreting of an article or service in forms of the USE to the consumer. The advertising of more uses of an article or better use and care of it can win (and is winning in the case of the automobile) an abundance of good will for the advertiser. People of Canyon appreciate this kind of advertising, too.

5. Advertise Locally Your Government's War Efforts

Canyon is still part of the U. S. A. Like thousands of other communities it is a part of the United Nations. Our citizens—every one of them—want to do their part in the way of co-operation with the government's war effort. They can learn their part by interpretation of the government's effort in terms of local participation.

6. Advertise and Help Sell Stamps and Bonds

For a community of its size Canyon is buying many stamps and bonds. But it is the extra effort that wins in any contest or war. More bonds MUST be bought and people of Canyon will buy them if they are urged to do so. Advertise and help to sell MORE bonds.

7. Advertise and Sell Public Morale

"The unparalleled ability of American advertising to inform and persuade is one of the greatest assets of this country in time of war as in time of peace," says the Advertising Federation of America. "Its force is urgently needed in this time of peril!" Building public morale by offsetting harmful rumors, and keeping alive the "confidence in our armed forces" and our ultimate victory is a job to be done in every community—Canyon included!

8. Advertise to Protect American Living Standard

By creating the desire for things in mass quantities, advertising has created the modern great factories, the high wages, shorter hours and better working conditions of the American people. By keeping alive the desire for things in Canyon and from Canyon the high standard of American living can be maintained—in Canyon.

Roosevelt Urges Advertising

NEW YORK, June 22 (AP)—President Roosevelt said today that "the desire for liberty and freedom can be strengthened by reiteration of their benefits" through advertising.

In a message to the 38th annual convention of the Advertising Federation of America, the President said:

"It is obvious that there are many changes going on in your field. For the duration there will be a diminution in product advertising, but this does not mean an end of advertising.

"There are many messages which should be given the public through the use of advertising space. The desire for liberty and freedom can be strengthened by reiteration of their benefits.

"If the members of your organization will, wherever possible, assist in the war program and continue the splendid spirit of cooperation which they have shown during the past year, advertising will have a worthwhile and patriotic place in the nation's total war effort."

Let's learn a lesson from the business men of Canada. After two and a half years in the war, their advertising (instead of diminishing) is increasing. They have discovered that they had their GOOD WILL to MAINTAIN with their customers, and a PATRIOTIC CAUSE TO SELL. They are explaining to the public their problems, and are telling them why they cannot furnish some products which wartime demands have curtailed. Serving a two-fold purpose, they are investing in the future of their country. Men of high vision can understand why this is sound business and splendid patriotism.

McCARTER GARDEN IS SETTING FOR BIG PARTY

The hot weather of last week was definitely forgotten by a large number of folk who gathered at the T. B. McCarter home Thursday evening to spend a few hours at games of "42." Ten tables were arranged in the spacious back yard living room where flowers and greenery added to the pleasure of the occasion. Hosts and hostesses of the affair were Dr. and Mrs. J. S. Humphreys, Dr. and Mrs. S. L. Ingham and the McCarters.

G. A. Farlow was lucky for the evening and carried off the traveling prize which was a pair of hand-carved walnut book ends.

The refreshment course consisted of a fruit plate with iced tea and Graham crackers.

Those seated were Mrs. L. Angel, Mrs. Grayson Bell, Mrs. W. L. Parsley, Mrs. Geraldine Green, Mrs. Harris M. Cook, Mrs. J. B. Speer, Misses Edna Graham, Nell Green, Helen Hickman and Esther Rudolph; Ardis Patman, and Mr. and Mrs. C. R. Burrow, Mr. and Mrs. J. L. Duflet, Mr. and Mrs. John A. Gillis, Mr. and Mrs. R. P. GARDEN CLUB HEARS ABOUT PANHANDLE BIRDS - FLOWERS

At the regular meeting of the Garden Club, July 1, Miss Sarah Thompson talked about birds and wild flowers of this section. She illustrated her talk with pictures, mounted birds, and flowers. One illustration which was of special interest was an original painting by Lillian Thompson of the bull thistle. The picture had won a prize at the State Fair at Dallas.

Miss Thompson said that within a year about 100 different species of birds could be seen in this locality, and at least 40 could be seen during any season of the year. The power of sight is most highly developed in birds enabling them to see many insects unobserved by the average human being. It has been estimated that without birds, insects would destroy all life on the face of the earth within a period of seven years.

Some of our most useful birds are: the barn owl which can eat as many mice as a hundred cats; the night hawk or bull bat with his enormous stomach which has been found to hold a variety of 600 insects at one time; and the yellow billed cuckoo whose favorite food is the caterpillar. Among many other useful and ornamental birds seen here are the pigeon, mockingbird, wood pecker, scissor tail, Baltimore oriole, cardinal, kingfisher and at least six kinds of sparrows.

The sap sucker has made himself quite unpopular by being so lazy he has become a nuisance. He likes ants and other insects as well as the sap from trees. He will peck a hole in a tree and wait for the sap to run. Insects get stuck in the sap, and the sap sucker feeds on both sap and insects without hunting. He has sometimes been known to cut a circle about a tree causing it to die. Another equally lazy but less harmful bird is the flicker which finds an ant hill, pecks on the ground until the ants come out to see what is happening, then eats them.

The bald eagle which we frequently see near the canyons is solid black when one year old, solid brown at two, and brown and white heads and tails when mature at three years.

Some of the more common migratory birds are the robins, blue birds, blue herons, ducks, black birds, and hummingbirds. The hummingbird has the appearance of having no feet. It alone can "stand still and fly" or even fly backward when it is gathering nectar from blossoms.

Birds may be encouraged to stay around if yards are supplied with bird baths, feeding racks, plantings of Russian olive, mulberry, coral berry, hackberry, roses, or sumac.

Miss Thompson showed a great variety of wild flowers picked from the prairies near Canyon. She told how each yucca blossom is furnished with a yucca moth which places a ball of pollen and lays an egg in another blossom, leaving the young moth to feed on only part of the seeds in the seed pod and to be ready to do its share in pollinating the yucca next year. She related the Indian legend of the little girl who was lost at night. The child prayed for a blanket like that of her father. The next morning her father found her covered safe and warm with wild gallardia. He named them blanket flowers. Miss Thompson told how Indians used some of the native flowers and roots for dyes and how we can get interesting results sketching certain flowers and using the crushed petals to paint them.

Mrs. J. A. Hill is to review the book, "Mrs. Appleby's Year" at the next meeting of the Garden Club in August. The Exhibit and Exchange committees will have charge of the program in September.

Mr. and Mrs. Johnny Simms and Susie Anne of Phillips, Mr. and Mrs. Neil Wilkinson of Guthrie, Okla., Mr. and Mrs. Bill Bryan and Geraldine Heath of Amarillo were week end visitors in the G. B. Heath home.

Mr. and Mrs. Robert Bellah of San Diego, Calif., arrived Tuesday for a two week visit here in the parental Alfred Bellah home and with her parents in Amarillo.

Summer Seniors Announce Gift

Class Votes To Give \$100 War Bond at Wiener Roast Tuesday

At last the seniors are showing class spirit, as evidenced last Tuesday night when 72 persons were present at the wiener roast given at the home of the sponsor, Dr. S. H. Condron. A few were non-graduating seniors and graduate students. The class is attempting to foster its spirit by a series of weekly parties and entertainments. At the business meeting called by President Edgar Allen, the class voted to buy a \$100 War Bond. It will be applied on a Student Union Building at maturity. Dues of one dollar must be paid by each senior by the end of the nine-week term.

The deadline for senior pictures is July 25. The space fee of one dollar must be paid at Britain's Studio at the time the pictures are made. Summer seniors who have their pictures in next year's Le Mirage will be able to buy the year-book for \$3 if they attended the nine-week term. Those who attend the full fifteen weeks may purchase a copy for \$2.50.

On Thursday night at 8:30 p. m. the seniors will have a watermelon party on the back lawn of Randall Hall. Each person who attends must pay 20 cents to Sarah Thompson, Burton Culp, or Margie Lee White. Those who plan to attend are asked to sign the sheet on the bulletin board by Thursday noon. Seniors may pay the one dollar class dues to the treasurer at the party.

Mrs. Carl Coffee Died in Amarillo Hospital Saturday

Mrs. Nova Coffee, wife of the late Carl Coffee, died early Saturday in an Amarillo hospital following a long illness. Funeral services were held Monday afternoon at 2:30 o'clock from the Chapel of the Blackburn-Shaw Funeral Home with Dr. A. D. Foreman, Jr., pastor of the First Baptist Church, officiating. Interment was in Llano Cemetery by the side of her husband.

The Coffees were residents of Canyon for many years while Mr. Coffee was associated in contracting work here with his brother, the late J. T. Coffee. The family home is at 3007 Van Buren Street, Amarillo.

Survivors include a son, C. D. Coffee, Jr., and a brother, Tom McCartney, both of Amarillo; and four sisters, Mrs. David Dammier, Amarillo; Mrs. Otis Walker, Conway; Mrs. Henry Grady, Ruidoso, N. M.; and Mrs. Floyd Grimes of Washington, D. C.; together with a sister-in-law, Mrs. J. T. Coffee, and a nephew, Herschel Coffee, both of Canyon.

Mrs. J. B. Heath left Monday for Colorado City after a two weeks visit here in the home of her son, G. B. Heath.

Farmers May Receive Loans for 1942 Crops

Emergency Crop loans for the production of winter wheat and other small grains are now available to farmers in Randall county, and applications for these loans are now being received at Room 24, First National Bank, by Harold D. Himmel, field supervisor, of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

As in former years, the money loaned will be limited to the applicant's necessary cash needs in preparing his land and seeding his 1942 grain crop.

Borrowers who obtain loans for the production of grain crops are required to give as security a first lien on the crop financed.

Sgt. Billy Black is now stationed with the United States Army Air Corps in Merced, Calif. He was formerly with the National Guard of Canyon.

Mr. and Mrs. Jimmy Holston of Ft. Sill, Okla., spent the week end with her parents, Mr. and Mrs. R. E. Foster.

Mrs. W. B. McElwee and Mary Ella of Lubbock visited Thursday and Friday with Mr. and Mrs. Leslie Key. She was the former Helen Hurst.

Golden Heads ENM College

Class of '25 Graduate
Was Dean and Acting
President at Portales

Floyd D. Golden is the third ex-student of West Texas State to head a college. He has been elected to succeed President Donald W. McKay of Eastern New Mexico College of Portales, who resigned about a year ago.

Mr. Golden, a member of the Class of '25, had been acting president. He was born in Snyder but moved to Canyon in time to finish high school work in the Demonstration School. After finishing college, he was superintendent of schools at Priona, Miami, and Portales. He became dean of ENMC about 1935 and served brilliantly in helping to direct the rapid growth of the new institution.

Other exes who are college presidents are Dr. Fremont Mead of Amarillo College and President Law Sone of Texas Wesleyan College of Fort Worth.

Commenting on the election, Judge C. M. Compton, chairman of the Board of Regents, said:

"Mr. Golden's experience as Acting President of the College for the past year is highly satisfactory to the Board. His proven administrative ability and his awareness of the problems of the College, as well as the educational problems of the state, make him the logical choice."

Mr. Golden was prominent in the student life of W. T. S. C. In addition to maintaining a high scholastic standing, he lettered four years in football, four years in basketball, three years in baseball, and two years in tennis. One year he was business manager of the college paper and for four years he was an active member of the Cousins Literary Society. At one time he was voted the honor of being the most popular man on the campus, and at another time he was voted the most handsome man. He earned all

of his college expenses by working at various jobs.

Mr. Golden received his Master's Degree from the University of Colorado and has done work toward his Ph. D. at Columbia and Colorado State College.

While at Priona, he married Miss Elsie Arline Poole, daughter of Mr. and Mrs. J. S. Pool of Canyon. Mrs. Golden, a graduate of the West Texas State College, has done graduate work at the University of Colorado in home economics and art. She taught with her husband seven years.

Mr. Golden is a member of Alpha Chi Honorary Scholarship Society. He is a veteran of World War I and is active in American Legion affairs. He is secretary of the Roosevelt County Selective Service Board.

Henson Attends Conference for War Work Group

Virgil Henson, college business manager, recently attended in Fort Worth a meeting of the Committee for Engineering, Science, and Management in Defense Training.

The committee approved a plan under which West Texas State would offer defense courses at government expense. The classes would cost accounting, industrial personnel management, office organization and management, and industrial accounting. Refresher courses would be offered in mathematics and physics.

The plan now goes to Washington for review and approval.

Museum Brings Many Tourists

Registration for June
Is 2,472; For Half-Year
Reaches 12,371 Total

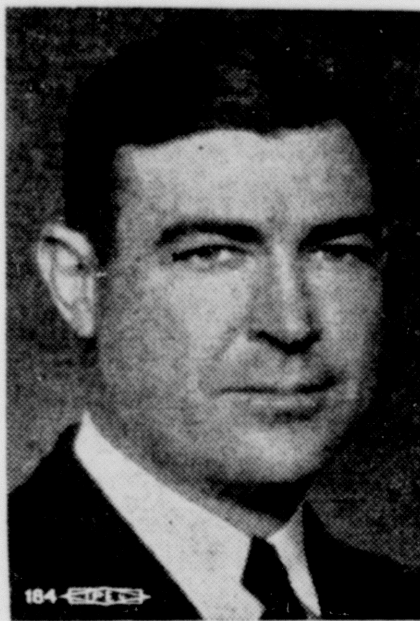

Eighteen states were represented in attendance at the Panhandle-Plains Museum during June, when—despite transportation difficulties—the number of persons registering totaled 2,472.

Leading states in the registration included Texas, with 2,083; New Mexico, 89; Oklahoma, 80; California, 28; Missouri, 25; Colorado, 21; Kentucky, 18; Kansas, 15; Iowa, 13; and Illinois, 10. There were three visitors from Panama and two from England. Seven came from the District of Columbia.

During the first six months of this year, a total of 12,371 persons registered at the Museum, according to Boone McClure, assistant curator. Of these, 11,117 were Texans. All states were represented except Delaware, Maine, New Hampshire, Rhode Island, and Vermont. Twenty-four visitors came from foreign lands. Total attendance was about 20 per cent under that of preceding years, but the Museum and nearby Palo Duro State Park continue to be one of the Southwest's leading tourist attractions.

Potentialities of the Museum will not be fully realized until the new two story addition is completed. A fund of about \$5,000 must be raised to start a WPA project for completion.

HEARTS and FLOWERS

TOM: Gosh, Ann, I'm glad I could get back in time for our wedding anniversary. Being on the road as much as I am, it seems like I'm never home. Here's something for you.

ANN: You darling! Flowers!

TOM: It could have been a new hat if that blamed car of mine hadn't had to have a new set of piston rings.

ANN: I know wives shouldn't interfere in their husband's business, Tom, but Mrs. Reardon was telling me how much money Jack saved on the maintenance of his car. He drives even more than you do.

TOM: What all did she tell you, Ann?

ANN: Well, Jack Reardon uses Conoco Nth motor oil. That's the oil that OIL-PLATES the engine and saves a lot of wear and tear. And it contains a new synthetic that helps keep the oil from fouling up, too. Mrs. Reardon says Jack has to make his car last two or three years longer now and Conoco Nth motor oil will help him do it!

TOM: That settles it, Ann! I'm going to change right now to Conoco Nth!

ANN: Good boy! And maybe I can still get that new hat?

You'll agree that it's orchids to Conoco Nth motor oil, once you prove to yourself how it is so economical, clean-running and wear-saving. See Your Conoco Mileage Merchant today! Continental Oil Company

ALLEN & BLACK

O.K. TOJO_
you asked for it!

You dished it out, with a head start by treachery—now we're going to see how you can take it!

We're ganging up on you, Tojo, in a way you and your Nazi friends don't understand.

Spreading like wildfire from coast to coast and from Canada to Mexico is our Payroll Savings Plan—get that, Tojo? Not confiscation—*savings*.

By the tens of millions, workers and employees of plants in every state of our country are cooperating with their unions and with management.

Of their own free will they're agreeing to put ten percent—a dime from every dollar—of their earnings in United States WAR BONDS.

Every payday the plant management sets aside this ten percent, then, each time it adds up to \$18.75, the worker gets his Bond.

See, Tojo? Hundreds of millions of good U. S. dollars are going into the planes, the tanks, the guns and the ships to blast you right out of your sandals!

And *we're* paying for it . . . the workers and employers . . . the farmers, doctors, lawyers . . . all of

us of our own free will, *lending it*, from our pay.

And—because this is the *American* way of doing things—we're building our own financial security, too, against the day when the war will be over—when we've shown you what decent, clean, *free* people can do.

Every year those War Bonds of ours increase in value, Tojo, until, after ten years, Uncle Sam hands us back TWENTY-FIVE DOLLARS for every \$18.75 we invested in beating you.

Get it, Tojo? It isn't the Jap way, the Nazi way, nor the Fascist way.

It's the *free American way*!

So, when you see those clouds of planes over your troops, your ships and your factories—when the tanks come at you spitting lead—and our good American boys get you on the run—remember, *we're* paying for it—Smith, and Harrigan, and Cohen, and Godowsky, and Leblanc, and Havlek, Americans all, in a *free* country.

So take it, Tojo—you asked for it!

5 Reasons Why

1. By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.

2. You prove that you are a patriotic American.

3. You aid the morale of our fighting men, by showing them that the entire Nation is behind them.

4. You prove to our enemies that we are a United People.

5. You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's *safest* investment, by buying a share in the world's most powerful country.

In the Good Old Summertime

What's more expressive of pleasant summery days than a pretty girl on a swing? Everyone, young in years and young in spirit, enjoys the pastimes that are distinctively designed for summer months. Best of all, you needn't worry about tire rationing or gasoline rationing when you swing skyward at a nearby park.

MISFITS

When the flood was over and Noah had freed all the animals, he returned to the ark to make sure all had left. He found two snakes in the corner, crying. They told him their sorrow:

"You told us to go forth and multiply upon the earth, and we are adders."

PROBLEM

Prof.: "Oxygen is essential to all animal existence. Life would be impossible without it. Yet, it was discovered only a hundred years ago."

Student: "What did they do before it was discovered?"

PERSONALLY ACQUAINTED

Farmer Jabber: "I've got a freak on my farm. It's a two-legged calf."

Farmer Cornassel: "Yes, I know. He came over to call on my daughter last night."

For a Successful Supper

No vacation would be complete without a lawn or porch supper for the family and for friends. Here's a suggestion for a pleasant party. Dress up your table with a huge bowl of potato salad surrounded by assorted sandwiches rolled into attractive shapes, cold meats, frosted cup cakes, pickles, olives, radish rosettes. Then serve a frozen dessert and iced tea. The day will be a huge success.

Joint Meeting of Rotary and Lions Clubs Thursday

A joint meeting was held Thursday noon by the Rotary and Lions Clubs at the Christian Church. Mitchell Jones, president of the Lions Club, was in charge of the meeting.

Lion Bob Hibbetts introduced Jim Gulick of the personnel department of Certain-Teed Products Corp., who talked about the new plant being erected near Amarillo.

Gulick spoke enthusiastically about the new plant and the people of the Panhandle. There is a great demand for employees, both men and women. These persons will be sent to Certain-Teed plants in other parts of the nation for training before the new plant gets into production. Skilled mechanics in every line are needed. He praised the work of women in war plants.

"They have a personal interest in their work as nearly every one has a husband or son in the armed forces who will use these munitions," stated the speaker. The

great production plants of the United States will win the war for the Allies was the belief of the speaker.

Visitors were: Ted Reid of Dumas and W. J. Wooten of Canyon.

WHAT DAVID SAID

A class was asked in a Sunday school examination to give the meaning of the word "selah." For a while no answer was forthcoming. Then a small boy held up his hand.

"Well," said the teacher.

"Please, sir," said the lad, "that's what David used to say when he'd break a string on his harp."

Animals which roamed over prehistoric Texas were the elephant, mastodon, tapir, horse, camel, bison, ground sloth, giant wolf, giant armadillo, and saber-toothed tiger.
